

Online Patient Portal

Family Health Care of Central Florida offers the convenience of an online Patient Portal. Within the portal, you are able to view lab & test results, view previous appointment information, schedule your next appointment, and make payments to your account! Simply log on to **MyHealthApple.com**, click on the **Patient Portal Login** link on the top right hand corner of the website, and access your account.

Thousands of Osceola County's students and youngsters visit their primary care provider at Family Health Care. The Kissimmee St. Cloud and Poinciana offices have several parent-approved/kid friendly doctors, nurse practitioners and physician assistants who look forward to visits each day from Osceola County's youngest citizens.

We are happy to direct parents and kids to our entertaining Kids Korner, where kids stay busy enjoying cartoons, reading kid-friendly books and magazines and completing coloring pages with a complimentary for-keeps box of brand new crayons!
